Have you ever seen a limousine driving by? You know, those big, long, fancy cars that famous people sometime ride in? When I see them I always wonder who is inside and what it looks like, don't you?

I think that this is why the students of Bell Jr. High are very excited to win a contest to get a limo ride to the school dance. Twin boys, Ron and Bob, are students at Bell and hope that their grades and volunteer hours are enough to get them a chance to win. Bob heard about the dance first since he works at the school office. Bob, his brother Ron, and all their friends are really looking forward to the dance. Even the boys are talking about what they'll wear to this event.

Find out what happens at the dance, and how the twins handle it when just one of them wins the limo ride by reading, *Limo for Two* by R. Fulleman.
